Hyderabad, India	<i>Teegala Krishna Reddy Engineering College</i>	

Projects

HELPING HANDS CHARITY | REACTJS [🔗](#)

- The Helping Hands Charity project aims to facilitate donations for health and education causes, providing a user-friendly platform for donors to contribute to various initiatives.
- The project is built using React.js for the frontend, incorporating client-side routing with React Router and state management using Context API.
- The project features an intuitive donation interface and secure payment processing using Razorpay, ensuring a seamless and user-friendly experience for donors.

RETRIEVAL OF TRAIN INFORMATION | HTML, CSS, JAVASCRIPT [🔗](#)

- Created a web application that provides live train status updates utilized JavaScript to fetch and display real-time data on train schedules from APIs.
- Designed a visually appealing and user-friendly interface . The application includes options for booking train tickets, checking PNR status, and retrieving live train status. Ensured the website is responsive, providing a seamless experience across different devices and screen sizes.
- Developed a search functionality that allows users to find train information by name and Improved user experience by providing real-time feedback and error handling.
- Gained significant experience in API integration by creating and managing secure API requests, handling errors gracefully.
